and is placed by:

2. Who is covered by the insurance?

The insurance covers the person in whose name a Sydbank MasterCard has been issued (cardholder). Moreover the insurance covers the cardholder's spouse or registered partner whose country of domicile is the same as that of the cardholder, or a cohabiting partner who is registered with the national register at the cardholder's address when they travel on holiday with the cardholder and go on a holiday trip without the cardholder.

The following applies to the cardholder's children, adoptive children, separate children and foster children under 24 years:

- Where children as specified above travel on holiday with the cardholder or go on a holiday trip with the cardholder's spouse, registered partner or cohabiting partner, such children are covered by these Insurance Terms and Conditions.
- Where children as specified above (separate children must be registered with the national register at the cardholder's address) go on a trip without the cardholder or the cardholder's spouse, registered partner or cohabiting partner, such children are covered by Sydbank MasterCard Youth Travel Insurance.

Persons covered by the insurance are referred to below as "the insured".

It is a condition that the insured is eligible for the ben-

efits of the National Health Service pursuant to the Danish National Health Service Act or has access to similar private or public cover in the country of domicile of the insured. The insurance does not cover persons whose country of domicile is outside Europe.

3. When is the insurance effective?

The insurance is effective for the term of the card, however no earlier than the time when the application for the Sydbank MasterCard is registered.

When the application for the card has been registered, the insurance will provide cover from the time when the insured leaves his home address, residence or place of work in the country of domicile in order to travel abroad. The insurance does not provide cover during transportation between home address and place of work and vice versa.

After a trip, cover under the insurance will terminate at the earliest of the following times:

- when the insured returns to his home address, residence or place of work
- when the insured has been transported home for treatment in the country of domicile of the insured
- when the insured has been away for more than sixty days starting on the day when the insurance cover for the trip in question becomes effective
- from the day when the insured could have been transported home but chose not to do so
- when the term of the policy expires where this occurs prior to the return of the insured.

5. Travel services

Travel services consist of a number of services available to the insured.

5.1 Pre-departure service

If requested by the insured, If Assistance will provide information on a destination's health care system, vaccinations, doctors and hospitals in the area as well as risks.

5.2 Pre-existing and chronic illnesses

If the insured suffers from any chronic or pre-existing illness, an evaluation must be made prior to departure to determine whether such illnesses will be covered by the health insurance scheme and/or insurance cover relevant to the trip. The table below explains which steps the insured should take in this respect:

Holiday trips of less than one month within Europe²

The insured must contact the National Tourist Health Insurance Scheme to find out whether expenses for treatment of chronic or pre-existing illnesses will be covered during the trip. The address and telephone number are stated on the back of the national health insurance card.

All trips

(Including trips covered by the National Tourist Health Insurance Scheme.)
In general the treatment of chronic and pre-existing illnesses are not covered by the insurance if the illness within the past two months prior to departure (six months if the planned travel period exceeds thirty days) has resulted in:

- hospitalisation
- medical assessment or medical treatment which is not part of a check-up
- a change in medication (change in dosage, new type of medicine or similar).

However the insured may contact If Assistance prior to a trip abroad to obtain a medical pre-evaluation. A medical pre-evaluation is a mandatory decision as to whether a pre-existing or chronic illness is covered by the insurance.

If Assistance - tel: + 45 70 13 13 34.

² See 41.4 for definition of the geographical area covered by the National Tourist Health Insurance Scheme.

European Health Insurance Card

In case of holiday trips of more than one month as well as business trips to an EU/EEA country or Switzerland, the insured who suffers from a pre-existing or chronic illness should take along the special

blue European Health Insurance Card (EHIC).

The EHIC covers expenses for medical treatment by a doctor or hospital, medication, dental treatment etc if a need for treatment arises during a stay of up to twelve months in another EU/EEA country and in Switzerland.

Expenses are covered on the same terms and conditions as those applying to persons covered under the public health insurance scheme in the country of residence, and this may mean that the insured must pay a share of the expenses for the treatment if this is the normal procedure for citizens of the country in question.

The EHIC can be obtained at the municipality of residence of the insured.

5.3 Medication service

If the insured loses his prescription medication during his trip, If Assistance can assist in providing new medication or help to find alternative medication.

5.4 Legal aid

While on a trip, the insured may be held liable for personal injury or damage to property or be accused of violating local laws. Also, the insured may sustain an injury or incur damage for which he wishes to be compensated. Cultural and political differences as well as language barriers may make it difficult to fully understand the situation and one may feel pressured into giving in to unreasonable demands. Therefore it is important to contact:

- the local Danish embassy/the local Danish consulate on site
- the tour guide if the trip has been arranged through a travel agency
- If Assistance, stating the name, address and CPR number of the insured as well as the Sydbank MasterCard number.

5.5 Provision of money

If the insured loses or has stolen his cash funds, traveller's cheques or credit cards while travelling abroad, If Assistance will arrange for cash funds to be forwarded (up to a maximum of DKK 7,500 per card per trip). If the need for cash has not arisen as a result of a covered claim, the amount forwarded will subsequently be withdrawn from the cardholder's account.

6. Illness and medical expenses

In the event of acute illness or injury of the insured during a trip which is covered by this insurance, the expenses for treatment will be covered as described below in 6.1.

7.1 Cover
