# Sydbank Best Execution Annual Report 2019

At Sydbank we aim to provide our clients with the best possible service, including services in connection with order execution in financial instruments.

This annual report shows how Sydbank meets the best execution requirements.

The guidelines for our order execution can be found in Sydbank's Execution Policy, which is available at - <https://www.sydbank.dk/omsydbank/investering> → "Priser og vilkår". Here quarterly Best Execution Reports are also available.

A best execution evaluation of trades with brokers and trading venues is conducted on a continuous basis through the trading activity on the trading desks and a sample best execution control. Based on these activities we evaluate the trading venues for future use.

On an annual basis a sample best execution control is performed for all trading venues and instrument types. The conclusion of the sample control is that Sydbank meets the best execution requirement for the trades and complies with the provisions of Sydbank's Execution Policy.

We do not see overall conflicts of interest in relation to trading venues. We do not receive non-trading volume discounts and rebates from any trading venues, nor do we have conflict creating ownership interests. Additional topics can be found in Sydbank's Conflicts of Interest Policy at [www.sydbank.dk/omsydbank/ir/corporate-governance](http://www.sydbank.dk/omsydbank/ir/corporate-governance) and [www.sydbank.com](http://www.sydbank.com).

Changes to top five execution venues in 2019:

The venues outside top 3 is joined in a category called "others" because it consists of several small contributions which represents a minor part of the total number.

A list of our top five execution venues in terms of trading volumes for all client orders executed at Sydbank is found below.

The list comprises the following:
